

Lateral Opening Mechanical Tilting

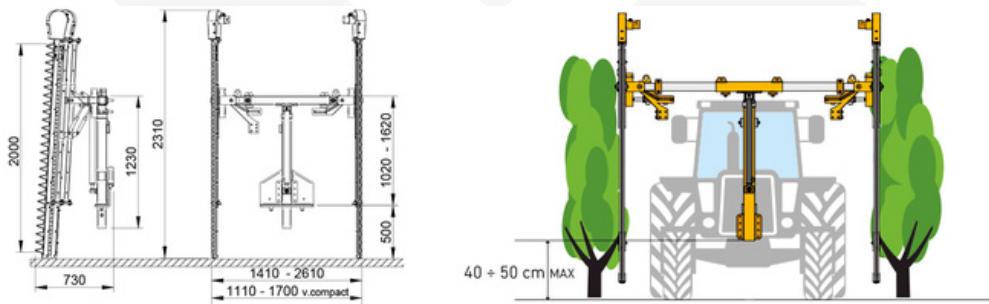

PRUNING ECO 400

DOUBLE BLADE TRIMMER WITH QUICK COUPLING

The ECO 400 Orizzonti is a dual-bladed fixed column pruning machine designed for front tractor mounting. As part of Orizzonti's entry level range, it maintains high reliability and efficiency while keeping a simple structure. It features two 160 cm vertical dual-bladed mowing bars, each equipped with gas shock absorbers to reduce impact during operation.

The machine is primarily mechanically operated, except for the hydraulic lift of the main column. Sturdy and dependable, the ECO 400 is an excellent choice for medium to large vineyards, particularly on flat terrain.

- Customizable setup with vertical bars (160-200 cm)
- and topping bars (100 cm)
- Hydraulic lift with speed regulator and quick coupling pipes
- Resting stand for easy storage
- Two cushioned dual-bladed vertical bars L = 160 cm
- Hydraulic motion: lift fixed column with speed regulator, control, quick coupling pipes
- Two mechanical movements: bar tilt, side extension
- Counter plate for quick coupling to the tractor
- Set-aside tripod
- Requires 180 bar and 20 litres oil/min
- Compatible with tractors of 40 hp/25 kW

Price From \$19,600 +GST*
