

# BW 500 PO Mounted sprayer

## EFFICIENT, DURABLE & ENVIRONMENTALLY FRIENDLY

The BW500PO is a versatile mounted sprayer equipped with an advanced opposite ventilator system, designed for medium-height orchards and vineyards. Its **two-speed nylon air fan with adjustable blades and opposite suction** ensures precise spraying with minimal drift, while the high-quality Annovi Reverberi pump and aluminium control unit guarantee reliable performance. Built to last, its **hot galvanized steel chassis and conveyor** provide durability in the toughest conditions. The BW500PO also features a **polyethylene tank with circuit washing and hand washing systems**, ensuring both convenience and efficiency during operations.

- Advanced ventilator system: nylon air fan, adjustable blades, and air rectifier.
- Stainless steel nozzle-holder arches with brass anti-drip double nozzles (M65).
- External suction filter with self-filling system.
- Three-point hitch for easy attachment.
- Anti-drift nozzles for reduced environmental impact.
- Annovi Reverberi aluminium pump for consistent performance.
- Internal agitator for uniform mixing.
- Fully compliant with EC Regulations.
- Drive shaft T40-900 (optional)
